

# ROCKY MOUNTAIN PLAYGROUNDS

## Horizontal Ladder Climber Jr

### Installation Instructions

1. Place the horizontal ladder piece on the ground in the area desired.
2. Dig the holes. See diagram below.
3. Assemble the climber on the ground on its side next to the holes where it will eventually stand by doing the following:
  - a. Insert the horizontal ladder into the sleeves (the holes on the top of the climber should line up with the insert holes.)
  - b. NOTE: If the holes don't line up, switch the vertical ladders to the opposite side.
  - c. Insert and tighten bolts with lock washers securely.
4. Stand the climber into the holes.
5. Level your horizontal ladder climber.
6. Pour cement. Allow to cure for 3-5 days.
7. Inspect and tighten bolts as needed.
